HZE15120SP
HotZone™ Patio Heater

Electric Patio Heater

The HotZone™ Electric Radiant Patio Heater is intended for deck and patio use. The highly efficient 1500W, 120V heater with the patented IRLens™ raises the temperature of people or objects in a 14 square foot area, eight feet from the heater, by 15 degrees or more. The Electric Radiant Patio Heater is a free-standing heater that comes with a safety tip switch and a cord that plugs into a normal wall outlet. Operating costs are 15 cents an hour when electric power costs 10 cents/KWh.
